

# Canter to dockland

**Approximate distance: 2 miles**  
**Expected duration: 30-40 minutes**

- Points of interest
- Direction of walk
- Toilets

# Canter to dockland

- 1** From reception at the Parks Sports Centre, turn right and follow the path around the building keeping the car park on your left and the building on your right. As the parking area ends, follow the path to the right. Turn left when you reach the bowling greens, crossing the metal footbridge.
- 2** Once over the bridge, take the path to your left and go under the subway bridge heading towards the green grass area.
- 3** Follow the path to the left, keeping the green to your right and you will pass a stream on your left. Stay on this path and bear left down the decline of the bank where you pass the Water Landscape artwork.
- 4** Walk beneath the high bridge and bear right around the Marina. Keeping the marina to your left, follow the path all the way around.
- 5** Go past the old clock tower on your right and cross through the car park towards the dock gates (crossing two sets of gates). Follow the path past the repair yards to your left. Turn sharply left where the path goes under Chirton Dean Way and then turn left again to cross over the wooden bridge. Turn right to follow the steep incline next to the water landscape area.
- 6** Once at the top of the water feature, turn left then right over another wooden bridge to follow the path around the green grass area. Once round the grass, walk up towards and under the subway of Howdon Road.
- 7** Follow the path up then go right across the first small footbridge which leads to a gate. Go through the gate and around the bowling green (on your left) to return to the Parks Sports Centre.
